### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1-10 and 51-55 are allowable over the closest prior art to Zhang et al. (US 5772857). With respect to claims 1-10, Zhang et al. fail to teach or suggest sputtering of a third magnetic layer on the second magnetic layer. The prior art fails to suggest a motivation to add a third magnetic layer in this particular structure. With regard to claims 51-55, Zhang et al. fail to teach the particular quaternary alloy compositions for use in the claimed first and second magnetic layers. The prior art fails to suggest a motivation to substitute the claimed alloys for the alloys taught by Zhang et al.

Claims 11-50 and 56-60 are allowable over the closest prior art to Chen et al. (US 6168861) and Bian et al. (US 6143388). Chen et al. and Bian et al. fail to teach or suggest the claimed relationship between the percentage change in coercivity and the percentage change in remanence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Rickman whose telephone number is (571) 272-1514. The examiner can normally be reached on Monday-Friday 9:30-6:00.
